# A Letter from the President

## Welcome Back!

Welcome back fellow SWEesters! We are excited to have you onboard for another great semester and look forward to meeting many new faces. SWE continues to be a highly active student organization on campus catering especially to women in science and engineering. There are a number of ways for you to get involved even if you're new to our organization. We sponsor numerous outreach events such as Habitat for Humanity, Engineering Tomorrow's Careers, and Girl Scout Badge Day. Plus, we host a number of events that give you valuable opportunities to meet new people and network with industries such as the upcoming Evening With Industry.

We have lots in store for you this semester, so I hope you're ready to dive in! We hope to see you at our next event!

Elissa Risberg  
SWE President 2005-2006

### Are you confused by our meetings and terminology? Here's a helpful explanation:

*Section meetings* are scheduled approximately every three weeks throughout the semester. They include announcements of upcoming events, a speaker typically from industry and free food!  
*Communication meetings* are our business meetings where we review past activities and talk about upcoming events. Officers are required to attend and others who would like to learn more about our activities are encouraged to attend as well. Communication meetings are held every three weeks.
