

SWester of the Month: Emily Laborde

Year: Sophomore

Major: Industrial Engineering

Why I joined SWE: Why wouldn't you? There are so many great opportunities, events, and people! SWE does a great job of providing professional development while still insisting on having fun and volunteering. Too cool.

Favorite SWE activity: Being an ETC Camp Counselor (not really an "activity" but still awesome) and helping with Kids Night Out and the Girl Scout Patch Days

Favorite place in Madison: Discovery Building- Can't go wrong with indoor trees

Interesting fact about yourself: I adore puns (especially the super bad ones). Please tell me some.
