December Section Meeting
SWEster of the Month: Karlee Kimberling

• Year: Freshman
• Major: Chemical Engineering
• Why I joined SWE: To connect with other like-minded people
• Favorite SWE activity: Card making
• Favorite place in Madison: Top of Bascom (especially at night)
• Interesting fact about yourself: I’m the youngest out of 6 kids.
Alumna of the Month: Alex Quast

- Graduated December 2016, Industrial Engineering
- Working as a Project Engineer at Honeywell Aerospace in Phoenix, AZ
  - I work on strategy and execution projects related to Honeywell’s Engineering footprint. I get to work with people from all over the world and a big part of my job is communicating effectively via email and Skype calls
- Miss most about Madison: Being close to all my friends and being only walking distance away from Badger football games!
- Advice for current SWEsters: Do not be afraid to apply for internships/co-ops outside of your comfort zone! Whether it be a position in another state or a job you don’t have much experience in. Best case scenario is you’ll find something you love, worst case scenario is that it’ll be over in a few months!

^^^ Additional advice: Take time after graduation to travel!! (I went solo backpacking in Europe for 6 weeks)
